Year 3-6 Intervention Class - Autumn 2 Highlights

A warm welcome to all parents and carers. This is our second newsletter and it is our way of celebrating the hard work of all the pupils in our class. I would like to remind you to continue to celebrate this at home too. Also, a huge thank you for your continued support.

What we've been working on: This term we have focused on learning about Judaism. The children have been exploring how Jewish people express commitment to a religion in different ways. They learned about the Torah and compared it with the Bible and Quran. They learned about where Jewish people pray - Synagogue and how they show respect in their faith. Their favourite part was creating their own menorahs.

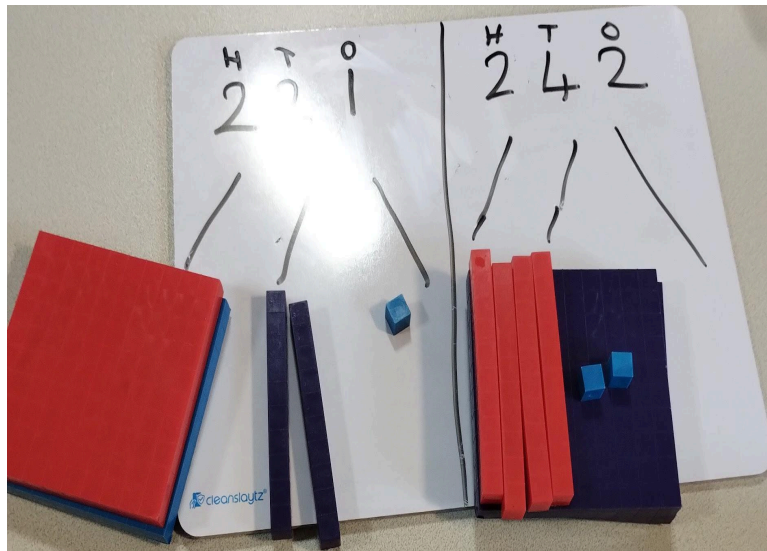

In maths they have been working really hard to improve their knowledge and understanding of place value with 3 digit numbers using diennes, part whole models and place value charts. We have been taking turns to explain the value of the digit when it is in different columns.

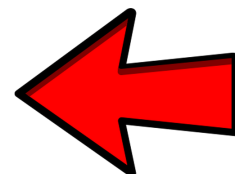

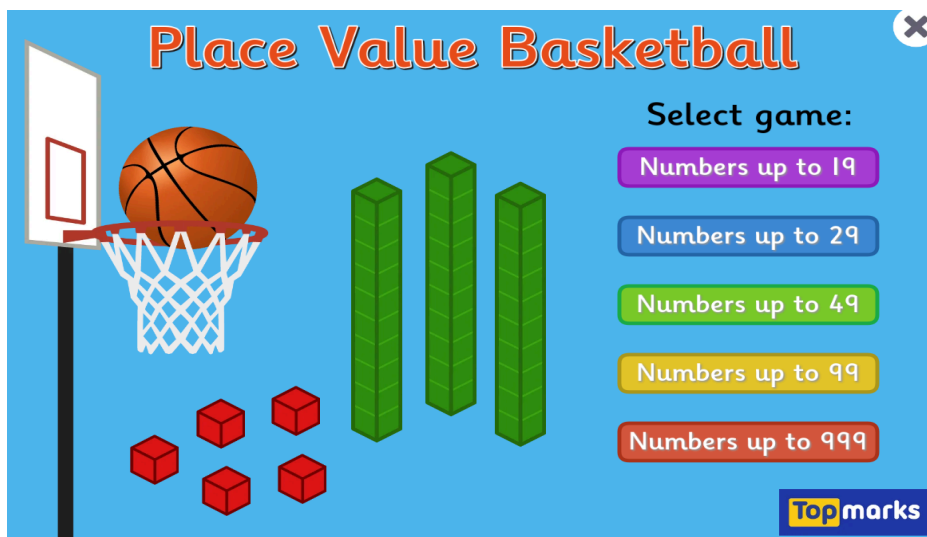

H	T	O	
1	2	3	Digit 3 is at ones place . So, its place value is 3 ones or 3.
2	3	1	Digit 3 is at tens place . So, its place value is 3 tens or 30.
3	1	2	Digit 3 is at hundreds place . So, its place value is 3 ones or 300.

Please continue to discuss three digit numbers wherever you can. Especially reading 3 digit numbers. This will help to build upon their previous learning and strengthen the new connections for a deeper understanding.

Home Connection: You can help keep this skill and knowledge building by asking them about the value of a number on the bus, a coin or on the price of an object. When playing the Place Value Basketball game, please encourage them to choose the numbers up to 999 option.
